2. This will open Price Check window as shown below

The screenshot shows a window titled "Price Check" with a close button (X) in the top right corner. Below the title bar is a section labeled "Item Price Details" containing three input fields: "Barcode :", "Item Name :", and "Search Code :". Each field is currently empty. To the right of the "Barcode :" field is a blue question mark icon. Below the input fields is a table with four columns: "Item Price List Name", "Basic Price", "Sales Price", and "MRP". The table is currently empty.

3. Scan (select an item by item name) the barcode number, the corresponding pricing details of the item will be displayed on the screen as shown below.

The screenshot shows the "Price Check" window with the same layout as the previous one, but now populated with data. The "Barcode :" field contains "T00023" and the "Item Name :" field contains "Sony C". The table below has the following data:

Item Price List Name	Basic Price	Sales Price	MRP
10 % Discount Price	\$19.04	\$19.99	\$19.99
Default Price	\$35.00	\$35.00	\$35.00
